

INSTRUCTIONS FOR:

- Hi-Flo® & Hi-Flo ES®
- S-Flo
- Cam-Flo XLT
- City-Flo
- Other pocket style filters

STORAGE INSTRUCTIONS

- Store filter in vertical position in original box.
- Keep in temperatures between 5°C - 40°C.
- Store in a clean, dry and frost-protected place
- Do not keep filter in direct sunlight.
- Maximum recommended shelf life, before installation, is five years provided the filter is kept under optimal storage conditions.

HANDLING INSTRUCTIONS

Caution: Handle filter with care. Do not touch the filter media. The slightest touch may lead to leakage. Do not drop filter to prevent severe damage. Avoid liquid spills/splashes on filter.

- Transport and carry vertically.
- Unpacking filters: lift filter by the frame, be careful not to damage the gasket or media. When available, follow instructions on the box!
- Avoid twisting filter frame.
- Large panel filters require two people when handling.

INSTALLATION INSTRUCTIONS

- Keep filter in box as long as possible before installation to avoid damage.
- For vertical installations, make sure filter is fitted with standing pleats.
- Make sure the gasket is not damaged during installation.

FILTER CHANGE

- Camfil recommends protective equipment such as overalls, gloves and face masks when changing filters.
- Always check local regulations before changing filters
- Filters are not reusable. Used filters should be disposed of according to local regulations.
